#### INTRODUCTION

The Virginia Department of Taxation would like to welcome you to the Federal/State Electronic Filing Program and to tell you how pleased we are that you will be participating. Last year we processed over 307,000 returns electronically and it is our hope that significantly more returns will be filed electronically in 2000.

In this handbook you will find items that are specifically unique to the Virginia Department of Taxation and topics on frequently asked questions. All rules, regulations, and requirements governing tax preparers, transmitters, and originators of returns as stated in the IRS Publication 1345, *Handbook for Electronic Filers of Individual Income Tax Returns (Tax Year 1999)* are in effect for the Virginia Department of Taxation. It is recommended that you study the IRS Publication 1345 prior to reading the Virginia Publication VA-1345.

#### FEDERAL/STATE ELECTRONIC FILING

#### **New for 1999**

The Virginia Department of Taxation will have the capability to **reject** returns.

We will be accepting the following returns electronically:

- Balance due returns;
- Part-year resident return, form 760PY;
- Nonresident return, form 763;
- Estimated Payments claimed on the returns after March 1, 2000.
- Underpayment of Estimated Taxes by Individuals (form 760C);
- Underpayment of Estimated Taxes by Farmers and Fisherman (form 760F);
- Schedule for Computing the Age Deduction, Addition to Tax, Penalty and Interest, Contributions and Consumer's Use Tax (schedule NPY for 763 and 760PY).

# **Federal/State Electronic Filing Process**

EROs and transmitters accepted in the IRS Electronic Filing Program and the Virginia Electronic Filing Program will be able to file both the federal return and the state return in one transmission to the Internal Revenue Andover Service Center. The software used to transmit the data must be certified by both the IRS and the Virginia Department of Taxation. The IRS will acknowledge acceptance of the federal data and receipt of the state data. The IRS acts as a conduit through which the Virginia Department of Taxation will retrieve the state data for processing. The Virginia Department of Taxation will acknowledge receipt of all returns retrieved from the IRS. The returns will then be processed through the Virginia Department of Taxation's computer system.

#### **ACCEPTANCE PROCESS**

# **Software Developers**

All software developers are required to follow the IRS and Virginia testing procedures for acceptance into the Federal/State Electronic Filing Program. The Virginia Department of Taxation will provide only software developers with Publication VA-1346, *Virginia Department of Taxation Test Package for Electronic Filing of Individual Income Tax Returns*. Upon successful completion of the software testing, an acceptance letter will be mailed.

#### **EROs/Transmitters**

The IRS provides Virginia with an Applicant Database file that will be utilized to conduct annual suitability checks on EROs that have applied and been accepted by the IRS. The VA-8633, *Application to Participate in the Electronic Filing Program* has been **eliminated.** EROs will no longer receive a letter of acceptance, however you may be contacted if additional information is necessary for acceptance.

#### VIRGINIA ELECTRONIC RETURN

The Virginia electronic return will consist of data transmitted electronically to the Virginia Department of Taxation and supporting paper documents to be retained by the ERO/transmitter for a minimum of three years. The electronic portion of the return is the Form 760 or 760S, 760PY, 763, federal Schedules A, C, C-EZ, D, E, F, W-2, W-2G and Form 1099-R. The nonelectronic portion of the Virginia return that must be retained by EROs is the signature form, VA-8453, and the state copy of all W-2s, W-2G and 1099-R. Substitute W-2 forms (Form 4852) and statements created on a personal computer are NOT acceptable.

# **Acceptable Virginia Returns**

In addition to the returns accepted for federal electronic filing listed in the IRS Publication 1345 for 1999, below is a list of the most popular forms, schedules and certain items on the Virginia return that can be transmitted electronically.

- 1. resident return long (Form 760);
- resident return short (Form 760S);
- 3. part year resident return (Form 760PY);
- 4. nonresident return (Form 763);
- 5. balance due returns;
- 6. federal schedules 1, 2, 3, A, B, C, C-EZ, D, E, EIC, F, H and R;
- 7. federal forms 1099-R, W-2, W-2G, 2106, 2119, 2441, 8283, and 8829;

- 8. returns containing certain "Other Subtractions" (refer to the Other Subtraction ELF Worksheet in the Appendix for specific acceptable items);
- 9. returns containing extension payments;
- 10. returns containing estimated payments after March 1, 2000;
- 11. returns which contain Form 760C/760F;
- 12. returns which contain schedule NPY.

# **Unacceptable Virginia Returns**

In addition to the returns excluded from federal electronic filing listed in Publication 1345 for tax year 1999, the following Virginia returns are also excluded:

- 1. amended returns;
- 2. prior year returns;
- 3. fiduciary returns (Form 770);
- 4. extension requests (Form 760E);
- 5. returns for any tax period other than January 1, 1999 to December 31, 1999;
- 6. returns containing certain "Other Subtractions" (refer to the Other Subtraction ELF Worksheet in the Appendix for specific unacceptable items);
- 7. returns containing Form 4852, Substitute W-2;
- 8. returns containing credits from Schedule CR;
- 9. decedents returns, including joint returns filed by spouses.

#### **Taxpayer Names and Addresses**

When entering taxpayer names and addresses, refer to the name and address abbreviations listed in the Appendix to ensure timely and accurate processing of the return and the issuance of the refund. Do not enter punctuation such as commas, periods or extra spaces. The name line of the Virginia return contains both taxpayers names if filing joint or separate on the combined return. The names on the Virginia return may not be more than 34 letters and spaces combined. If you file a return with more than 34 letters and spaces, the letters over 34 will not be transmitted to the state. This would result in the last name being cut off and may hold up the processing of the return and delay any refund that may be due. This could also result in a refund being issued without a complete last name.

# **Locality Codes**

For each city or county in Virginia there is a three digit code that is assigned to it and must appear on the electronic return when it is filed. The code must match the city or county that the taxpayer lived in on January 1, 2000. Some software packages require the name of the city or county be entered and the software automatically enters the proper code on the return. Other software packages may require that you put in the locality code manually. This is a required field, so please check with your software developer on the proper way to ensure that this number is on the return. In the Appendix there is a list of the 136 possible locality codes that must appear on the return. There is also a list of all cities, counties and towns in Virginia with the same 136 locality codes for your use to ensure that the proper locality code is on the return.

#### TRANSMITTING THE VIRGINIA ELECTRONIC RETURN

The Virginia return data must be transmitted to the Internal Revenue Andover Service Center with the federal return data in accordance with the IRS procedures. It is imperative to understand the functionality of your software package to ensure that the state return is attached to the federal return when it is transmitted. The majority of the telephone calls to the help desk last year were to determine whether the state return was received or not. In these cases, the state return was not attached to the federal and the taxpayer had to file a paper return since the federal return was accepted.

When the IRS has provided an acknowledgment of acceptance to the ERO/Transmitter, the state return data will be made available to the Virginia Department of Taxation for retrieval within 24 hours of the federal acknowledgment. If the federal return data is rejected, the state return data will also be rejected.

#### **ACKNOWLEDGMENT OF VIRGINIA ELECTRONIC RETURNS**

In 1999 a new service provider was selected to support the Centralized State Acknowledgment System (StAck). Program participants that are required to directly access StAck to retrieve their state acknowledgments will be required to register with the new service provider. You should be aware that there will be a nominal fee charged by the service provider for use of StAck.

If your software provider accesses this system on your behalf, you will not be required to register with the new service provider. You should refer to your software instructions for additional information regarding your responsibilities for accessing and retrieving state acknowledgments.

You can call the StAck Help Desk at (828) 349-5750 to request an application. You may also register with the new service provider through www.state-ack.net.

# **FORM VA-8453**

The Form VA-8453, *Virginia Individual Income Tax Declaration for Electronic Filing,* is the state signature form equivalent to the federal Form 8453, *U.S. Individual Income Tax Declaration for Electronic Filing.* Form VA-8453 must be completed and signed by all appropriate parties before the return is transmitted electronically. The Appendix includes a copy of this form and instructions.

The ERO must retain the completed forms and attachments in their office once the Virginia acknowledgment is received. These should be filed by Declaration Control Number and maintained for three (3) years from the due date of the return or the filing date, whichever is later. For taxpayer-prepared returns, the ERO must retain the forms. EROs must make the documents available to the Department of Taxation upon request year-round.

NOTE: An ERO/transmitter that closes their business must mail all VA-8453 forms and

attachments to the Virginia Department of Taxation along with a letter of

explanation.

# **IRS Declaration Control Number (DCN)**

Enter the IRS Declaration Control Number (DCN) in the appropriate boxes at the top, left-hand portion of the form.

#### **Part I Tax Return Information**

Enter the necessary information as requested from the Virginia Form 760 or 760S. These entries must match the entries on the corresponding lines of the electronic return. Enter whole dollars only.

### **Part II Direct Deposit**

Enter the financial institution information requested to have a refund deposited directly into the taxpayers bank account.

**NOTE:** The financial institution accounts into which the Virginia refund and the Internal

Revenue Service refund are deposited may be different.

### Part III Affirmation of Taxpayer

After the return has been prepared and before the return is transmitted, the taxpayer (and spouse, if joint) must verify the information on the return and sign and date the completed Form VA-8453. The ERO must provide the taxpayer with a copy of this form.

#### Part IV Affirmation of ERO and Paid Preparer

The ERO and paid preparers are required to complete all information in Part IV of Form VA-8453.

# **Attachments to Form VA-8453**

The state copies of Forms W-2, W-2G and 1099-R. Form 4852, Substitute Form W-2 or copies generated by a preparer or transmitter's software are **NOT** acceptable documents.

#### Filing of Form VA-8453

The ERO must retain the completed forms and attachments in their office once the Virginia acknowledgment is received. These should be filed by Declaration Control Number and maintained

for three (3) years from the due date of the return or the filing date, whichever is later. For taxpayer-prepared returns, the ERO must retain the forms. EROs must make the documents available to the Department of Taxation upon request year round.

NOTE: An ERO/transmitter that closes their business must mail all VA-8453 forms and

attachments to the Virginia Department of Taxation along with a letter of

explanation.

#### **Corrections to Form VA-8453**

If the ERO changes the electronic return after the taxpayer has signed the Form VA-8453 but before transmitting the data, the ERO must have the taxpayer sign a corrected Form VA-8453, if the Virginia taxable income (line 3) changes by more than \$25 or the state refund (line 6) changes by more than \$5. Non-substantive changes are permissible if the person making the corrections initials the changes.

#### **REFUNDS**

Taxpayers may elect to have their 1999 tax refund paid in one of the following ways:

- paper check, or
- deposited directly into their bank account, or
- credit the overpayment to their 2000 estimated income taxes, consumer's use tax or make a contribution.

# Paper checks

Refund checks should be processed, mailed and in the taxpayer's possession within two weeks of the Department's acknowledgment. If a delay does occur, taxpayers should be advised to wait four weeks from the date of transmission before calling the Virginia Department of Taxation to inquire about the status of a refund check.

#### **Direct Deposit**

Refunds by Direct Deposit are electronically transferred to the financial institution account indicated on the VA-8453.

#### **NOTE:**

The financial institution accounts into which the Virginia refund and the Internal Revenue Service refund are deposited may be different. Therefore, the state and federal routing and transit numbers (RTN) and deposit account numbers (DAN) may not be the same.

Internal Revenue Service Publication 1345 sets forth detailed eligibility requirements, responsibilities, and instructions governing tax preparers, transmitters, and ERO's who offer taxpayers the option of Direct Deposit. Those same rules, policies and procedures apply when offering Direct Deposit on the state return.

If any of the following conditions exist, the Virginia Department of Taxation will issue a paper check:

- Invalid Routing and Transit Number;
- Outstanding debts with agencies of the Commonwealth of Virginia, Virginia local governments, the Virginia court system or the IRS (if there is a refund balance remaining after the satisfaction of a debt);
- Rejection by the receiving depository financial institution.

**NOTE:** Some financial institutions do not permit the deposit of a joint refund into an individual

account. The Virginia Department of Taxation is not responsible when a financial

institution does not accept a direct deposit for this reason.

**NOTE:** Some financial institutions may not accept Direct Deposits into an account that is

payable through another bank or financial institution, including credit unions.

# **Refund Anticipation Loans**

The Virginia Department of Taxation neither supports nor prohibits Refund Anticipation Loans (RAL's). The agency and the State Treasurer's Office are not and will not be liable for any loss suffered by the taxpayer nor the preparer/transmitter/ERO as a result of the Virginia Department of Taxation's denial of a Direct Deposit request. The direct deposit will be denied if the taxpayer has outstanding debts with agencies of the Commonwealth of Virginia, Virginia local governments, the Virginia court system or the IRS.

**NOTE:** The Virginia Department of Taxation will not be able to provide your client with specific

details regarding RAL's. If your client calls the Virginia Department of Taxation, they will be referred to your office upon verification that the direct deposit request was

honored.

#### **Refund Delays**

Refund checks should be processed, mailed and in the taxpayer's possession within two weeks and direct deposits should be made within 5 to 7 days of the Department's acknowledgment. If a delay does occur, taxpayers should be advised to wait four weeks from the date of transmission before calling the Virginia Department of Taxation to inquire about the status of a refund check.

Before issuing any refunds, we are required to check for any outstanding debt with agencies of the Commonwealth of Virginia, Virginia local governments, the Virginia court system and the IRS. If any such debt is found, all or part of the refund may be withheld to help satisfy the debt and processing of the return will be delayed. The taxpayer will be notified if the refunds are withheld.

Taxpayers may inquire about the status of their refund by calling the Tele-tax line at (804) 367-2274, from 8:00 a.m. to 5:00 p.m. Monday through Friday or speak with a Customer Service Representative at (804) 367-8031, 8:30 a.m. to 4:30 p.m., Monday through Friday. Please **do not** give your clients the Help Desk telephone number to inquire about their refunds. The Help Desk was established to expedite assistance to EROs and Software Developers.

#### **Balance Due Returns**

Tax due payments must made by mailing a check accompanied by Form 760-PMT, Payment Voucher. These forms are found in tax preparation packages. EROs must supply taxpayers with Forms 760-PMT, if needed, and ensure that they have the correct mailing address. Vouchers do not have to be mailed at the same time the electronic return is filed. The taxpayer can mail the payment and voucher at any time on or before May 1. Returns filed or payments made after the due date will be subject to applicable penalties and interest.

Any tax due returns that are adjusted by the Virginia Department of Taxation will receive a Notice of Assessment once the return is processed. The Notice of Assessment will include the tax due amount as originally filed provided that the tax amount has not been processed. If the taxpayer has sent in the payment for the tax, the balance of the assessment should be paid within 30 days.

#### RESPONSIBILITIES OF PREPARERS/TRANSMITTERS/EROS

Preparers, transmitters, and EROs must maintain a high degree of integrity, compliance, and accuracy to remain in the Federal/State Electronic Filing Program. They must also follow the terms set forth in this handbook and adhere to the requirements below. Persons or firms not meeting these requirements are subject to suspension from the program by the Virginia Department of Taxation.

# Accuracy

It is important to verify the accuracy of the name, address, and Social Security Number for all taxpayers. Inaccurate information may delay the processing of the return.

# Compliance

All electronic filers must comply with the requirements and specifications set forth in the IRS publications 1345, 1346, 1436 and the Virginia publications VA-1345, VA-1346 and VA-1436.

# **Timeliness of Filing**

Transmitters must ensure that electronic returns are filed in a timely manner. The date of the IRS acknowledgment will be considered the filing date for a Virginia return transmitted electronically.

#### **Deadline for Filing**

The Virginia Department of Taxation will accept electronically filed Virginia individual income tax returns which have been submitted for transmission to the IRS Andover Service Center through October 15, 2000. Any Virginia return submitted after October 15, 2000 must be filed as a paper document. A paper return must be filed with the Commissioner of the Revenue, Director of Finance, or Director of Department of Tax Administration in the city or county where the taxpayer resides.

# Changes to the Return

If the transmitter or taxpayer wishes to make any changes after the electronically filed return has been accepted, the taxpayer must file an amended return through the paper document filing process. Amended Virginia returns should be mailed to the Commissioner of the Revenue, Director of Finance, or Director of Department of Tax Administration in the city or county where the taxpayer resided on January 1, 2000.

# **Responsibility to Clients**

Preparers have the important task of filing a client's tax return, and they must ensure that the return arrives at the Virginia Department of Taxation. If the electronic state return fails to arrive at its destination or the return is rejected, preparers must advise their clients to file a paper return.

# **Acknowledgments**

The Virginia Department of Taxation will acknowledge receipt of the state data from the IRS through the Centralized State Acknowledgment System (StAck). Individual returns are either accepted or rejected for specific reasons. Accepted returns meet the processing criteria and are considered "filed." Rejected returns fail to meet processing criteria and are considered "not filed." The acknowledgment identifies the source of the problem using a system of error reject codes. The error reject codes tell why the return rejected. The error reject codes are in the Appendix of this publication to help identify the cause of rejection. Rejected Virginia returns may not be retransmitted since the federal return is already accepted. A paper return must be filed with the Commissioner of the Revenue, Director of Finance or Director of Department of Tax Administration in the city or county where the taxpayer resided on January 1, 2000.

EROs/Transmitters are encouraged to make regular inquiries on the StAck Bulletin Board Service concerning the status of transmitted returns. Transmitters should notify their EROs of the return's acceptance within five (5) working days after obtaining the acknowledgment from StAck.

Any correspondence concerning errors made on an electronically filed return will be directed to the taxpayer. The taxpayer should be advised to wait at least four (4) weeks from the date of acknowledgment before making an inquiry about the return to the Virginia Department of Taxation.
